Update on Advanced Practice across the four countries of UK

Advanced Clinical Practice developments in Scotland

Scottish Rep for AAPE UK Committee

Dr Evelyn McElhinney, Glasgow Caledonian University

Advanced Clinical Practice developments in Northern Ireland

Northern Ireland Rep in AAPE UK Committee
Donna McConnell, University of Ulster

Advanced Nursing Practice (Northern Ireland)

- DHSSPS published the Advanced Nursing Practice Framework in 2014
- Provides a definition of Advanced Nursing Practice and identifies the core competencies and learning outcomes essential for the role
- Identifies the distinguishing characteristics between Advanced and Specialist Nursing practice

- Highlights the associated professional support and supervision required by ANPs
- Currently focused on nursing only
- Consists of four core competencies
 1. Direct Clinical Practice
 2. Leadership and Collaborative Practice
 3. Education and Learning
 4. Research and Evidence-Based Practice

Advanced Nursing Practice (Northern Ireland)

- **MSc Advanced Nursing Practice** has been developed from this Framework and delivered at Ulster University
- Commenced with first cohort September 2017
- Currently focuses on Emergency care, Children's and General Practice pathways

- Non-medical Prescribing (V300) is a prerequisite for entry onto this course
- Currently only nurses who have completed this programme, meet the requirements of the role and who are employed as Advanced Nurse Practitioners will be able to use the title in NI.

Advanced Clinical Practice developments in Wales

Welsh representatives in AAPE UK Committee

Anna Jones, University of Cardiff &

Mark Edwards, University of Swansea

Welsh Governance and employer regulation

- Welsh Framework for Advanced Practice and Advanced Practice Portfolio (National Leadership and Innovation Agency for Health Care, 2010);
- Aim focused on NHS organisations, ensuring a more consistent approach across Wales, outlining a level of practice (Level 7) rather specific roles;
- Aim focused on assisting AP's to engage in research, education, management, leadership and clinical activity;
- Development of Advanced Practice databases across some health boards.

Review of the utilisation of the NHS Wales Advanced Practice Framework

Recommendations:

- HB's and Trusts should review the governance arrangements for their AP workforce;
- Audits should support AP's to develop metrics, evaluate and report clinical practice outcomes;
- HB's and Trusts should ensure consistency across organisations;
- HB's and Trusts should ensure and support appropriate clinical supervision and mentorship for AP's.

Welsh AP funding

- Support for the education of AP's within Wales has been consistent over the last few years, and in 2018, has reached £1.25 million, with a focus on primary care. This is part of a £95 million package of investment to train healthcare professionals in Wales

Workforce, Education and development services

- The support package will also provide an additional £500,000 to support community healthcare such as advanced practice, education and extended skills training to support primary care clusters.
- There will also be a significant increase in practice nurse and district nurse education as well as audiology training places within primary and community settings. This will provide vital funding for community services and will ensure many more patients can be cared for closer to home, rather than in hospital.

- 32 Associate Physician places agreed at Bangor and Swansea Universities for 2018
- The funding will also support the integration of hospital and community pharmacy training and education into one programme.
